K MIX Kilwaughter Chemical
Company Limited
Construction Mortars

K Mix: a range of dry bagged construction mortars

The K Mix product range incorporates a variety of dry bagged construction mortars that require only the addition of water and mixing time. The mortars can be used for block and brick laying, scratch coats, bedding for pavia and grout for pavia.

Quality 

K Mix is manufactured under ISO 9001 and carries the British Standards Institute Kitemark® licence. The Kitemark® is the world's premier symbol of trust, integrity and quality ensuring that vital product safety and performance requirements are met. BS EN 998:2003 is a British and European Standard entitled 'Specification for Mortar for Masonry'. It is published in two parts; part 1 deals with 'Rendering and Plastering Mortar' and part 2 deals with 'Masonry Mortar'. Achieving a kitemark to BS EN998 part 2 for the majority of the K Mix range is your guarantee that K Mix has satisfied the most rigorous of quality testing processes.

K Mix and the Environment

Pride is taken in product innovation, however the impact on the environment is also important. Environmental considerations are an integral part of business practice. Therefore, in manufacturing the K Mix range, care has been taken to ensure from the earliest stages of product design through to manufacturing, modern technologies have been utilised to help to reduce carbon footprint.
