
**KILWAUGHTER CHEMICAL
COMPANY LIMITED**

Limestone Sand, Aggregate and
Calcium Carbonate Powders

Kilwaughter Chemical Company Limited has been an established mineral and quarry processor since 1939. Quarrying and production facilities are based at headquarters in Larne, Northern Ireland, where operations span a 50 acre site. Product lines include limestone sand, aggregate and calcium carbonate powders. Market leading K Rend through coloured render is also manufactured on site.

Kilwaughter quarry produces the much sought after 'Co. Antrim white limestone' used in the construction and agricultural industries throughout Ireland.

Subsidiary company Irish Aggregates Ltd, based in Cork, is a leading supplier of materials to the Irish Construction and Landscaping industries, stocking a large range of dry dash, coloured render, decorative aggregates, landscaping materials and specialist sands.

Research and development

Research and development at the company is a continuous process that provides new answers to the changing needs and expectations of our customers. Driven by market requirements and the emerging opportunities presented through the development of new technology, the company is committed to providing new innovative products.

Accreditations

Mineral processing carries ISO 9001. Products are quarried and distributed throughout Ireland for use in agriculture, construction and specialist industrial applications.

The Environment

Kilwaughter Chemical Co Ltd takes pride in innovative product design, however the impact on the environment is also important. Environmental considerations are an integral part of business practice. Care has been taken to ensure that from the earliest stages of product design through to manufacturing, modern technologies have been utilised to help reduce their impact on the environment. Five areas of particular attention are:

RESPONSIBLE MANUFACTURING

RECYCLING

ENERGY EFFICIENCY

MONITORING BIODIVERSITY

ON-SITE RESTORATION

Kilwaughter Chemical Co Ltd's Environment Management System is certified to the Green Dragon Environment Standard which is UKAS accredited.

Limestone Product Range

The Limestone product range provides an extensive selection of materials for use in Building, Agriculture and Industry.

Packaging and delivery

All products are available delivered or via ex-works collection in:

25kg sack, 40kg sack, 1 tonne sack, bulk tipper (28 tonne load), bulk tanker (28 tonne load).

BUILDING (Used in construction)

Limestone Sand Grade 1

Limestone Sand Grade 2

Limestone Sand Grade 3

Limestone Mastic

AGRICULTURE & BUILDING

Granular Limestone

Limestone Grit
available in 1mm, 2mm or 4mm

Agricultural Lime

HORTICULTURE (Used to enrich compost and peat)

Horticulture Coarse

Horticulture Fine

Minerals Product Range

The Minerals Product Range provides an extensive selection of materials for use in Industry and Building.

Packaging and delivery

All products are available delivered or via ex-works collection in:
25kg sack, 40kg sack, 1 tonne sack, bulk tipper (28 tonne load), bulk tanker (28 tonne load).

INDUSTRY

Fine Whiting

Coarse Whiting

Asphalt Filler

Calcite Industrial Filler

BUILDING (Used in dry dash applications)

Limestone Chips 4-8mm

available in 6mm or 10mm

BUILDING

(Used in dry dash applications)

Glencairn Mix
available in 6mm or 10mm

Garland Mix
available in 6mm or 10mm

Ardmore Mix
available in 6mm or 10mm

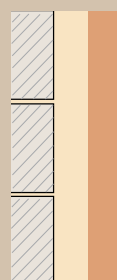

Durite
available in 8-12mm or 3-8mm

K Dash Traditional Fine Mortar is used over K Rend Base Coats. It is through coloured white and has been designed to have excellent workability and open time properties when used as a background for 4 -12mm dry dash finish. The finished thickness is normally determined by the size of the aggregate. Apply a uniform butter coat and throw the aggregate onto the surface while the render is still 'green'.

Dash receiver

Base coat 8-10mm
Dash receiver 8mm
Dry dash
