

The m-tec M300 Complete Package

The economic solution for construction sites, functional and compact.

Kilwaughter Chemical Co Ltd and m-tec are pleased to offer you the M300 Complete Package. The revolutionary technology of the m-tec M300 makes it the ideal and easy to use multi-purpose mixing pump for interior and exterior rendering. The lightweight but powerful mixing pump can be easily manouvered around a building site making it a very versatile machine whatever the job.

The m-tec M300 Complete Package includes:

- Mixing Pump including compressor and water pump
- 1 maintenance free stator including rotor m-tec unistar
- Pump end piece F35 with tensioning wedges
- Reducing piece M35/M25
- 1 mortar hose ND25, 10m long
- 1 air hose 0.5", 10m long
- 1 spray gun
- Hose pressure gauge
- 1 cleaning tool
- Selection of tools
- 15KVA diesel generator
- Loading ramps
- Water butt and water hoses (20m)
- Material tester
- SY electric cable

Advantages of using a spray applicator on site

- **Labour & Scaffold Costs**

Ensures labour is more productive covering a larger area in a shorter period of time.

This results not only on labour cost savings but significant savings can also be made on scaffolding costs

- **High Quality Mixes**

Provides a high quality continuous consistent mix that enables skilled workers to have a controllable supply of accurately mixed material ready to be applied

- **Waste Costs**

Reduces waste by ensuring the correct material quantities are mixed
